National Professional Qualification for Leading Teaching

The National Professional Qualifications (NPQs) are a group of widely recognised professional qualifications designed to meet the needs of education leaders in England. NPQs provide extensive training and support for current and aspiring leaders at all levels.

The NPQ for Middle Leadership has been replaced with four new specialist qualifications: NPQ for Leading Teacher Development (NPQLTD), NPQ for Leading Behaviour and Culture (NPQLBC), NPQ for Leading Teaching (NPQLT) and now the brand-new NPQ for Leading Literacy (NPQLL), designed for teachers who want to broaden and deepen their expertise in specialist areas within educational settings.

Designed in partnership with schools and expert organisations

The National Professional Qualification for Leading Teaching (NPQLT) is designed for teachers who have, or aspire to have, responsibilities for leading teaching in a subject, year group, key stage or phase.

Individuals working in this type of role often manage a team of teachers and focus on supporting effective teaching across the school.

They need to have expertise across several specialist areas and have a thorough understanding of the pupils and colleagues they work with, all while maintaining the highest professional conduct as set out in the Teachers' Standards, to ensure staff and pupils can thrive.

The course curriculum aims to develop flexible expertise to support individuals when faced with the range of challenges they will encounter. The NPQLT course curriculum also includes subject-specific, phase-specific and domain-specific materials to enable participants to develop expert teaching practice within their relevant context. This programme is designed in partnership with schools and expert organisations, ensuring all content is up-to-date, relevant and immediately applicable for all participants.

* plus 3 months for summative assessment process

All our specialist qualifications use a common methodology to develop and nurture your existing expertise and capabilities.

Each of our NPQ programmes includes:

- » **An introduction and diagnostic assessment** to scaffold and frame your learning, identify gaps in your knowledge and help you target the areas most relevant to your development.
- » **Tutor sessions, led by a Local Lead Trainer** which will provide you with individual feedback and support.
- » **Lots of online evidence and examples** to introduce you to key ideas and demonstrate how you could implement these concepts in your own context.
- » **Regular micro implementation tasks** to reinforce the overall approach to managing improvement and prepare you for the summative assessment.
- » **Face-to-face and live online training** where together with your peers you'll learn through expert-led dialogue, collaborative activities, and structured practice of new techniques.
- » **Embedded formative assessment activities** to check your understanding and confidence, signpost you towards further learning and provide feedback that's individual to you.

The course curriculum aims to develop flexible expertise to support individuals when faced with the range of challenges they will encounter

Leading improvement in teaching

All our NPQs begin with an introduction to our approach to capacity development and managing improvement through implementation. This approach is then embedded throughout the duration of the programme.

You will focus on developing mastery of relevant expertise, gaining the knowledge and tools to develop others, and extending your influence across a school, phase or department.
